November 16, 1956

Mr. Norman Myers, Treasurer  
University of New Hampshire  
Durham, New Hampshire

Dear Mr. Myers:

By your letter of November 12, 1956, you have requested from this office an opinion as to whether duly constituted University officials may restrict the operation of student vehicles on the public streets of the Town of Durham, New Hampshire.

It is the opinion of this office that when a student enrolls at the University of New Hampshire he is subject to all rules and regulations duly promulgated by the University. One of the rules contained in the "Rules Book for Students" found on page 35, Part 10, section 25, is in essence that a student may be permitted to operate a motor vehicle in Durham only under the conditions contained in the University of New Hampshire "Motor Vehicle Regulations." The Motor Vehicle Regulations specifically state the students who may operate motor vehicles in Durham and those who may not. It is, therefore, our opinion that said rules may be enforced by penalties duly prescribed by the University.

Sincerely yours,

William J. Deachman  
Assistant Attorney General

WJD/aml
